F. Weiler (Germany)

Monaco, 04 May 2023

Object: Request of Endorsement for the 11th International Workshop on Lung Health

Esteemed Professor,

We are contacting you on behalf of the Organizing and Scientific Committee of the “11th Edition of the International Workshop on Lung Health” scheduled in **Seville from January 18th to January 20th, 2024**.

Please find enclosed here a copy of the **Preliminary Programme** where you will find detailed information about the Workshop. The **fil rouge** of the XI International Workshop on Lung Health has been defined: “**New Scenarios**” is the main theme which embraces sessions, lectures, and symposia. In the last year and half, in the post-COVID era, many interesting news, opportunities and challenges crossed the door of the respiratory world.

During the 3 Workshop days we would face all the **major and outbreaking topics of Respiratory Medicine**: from **Asthma** and **COPD** to **Respiratory Infections**, reaching also the **Interstitial** and **Rare Diseases**, focusing on the most recent updates and perspectives, in terms of clinical advances and research outcomes.

More time will be devoted to **discussion, interaction and contribution** from the audience with the reconfirmation of the following **interactive formats**:

- The **Rising Stars Programme** will give the opportunity to young clinicians and researchers worldwide to present their valuable work for the first time in front of an international audience and get suggestions from the faculty members.
- The **Future Health Leaders Mentoring Programme (FuHeL)** will welcome 10 – 12 selected early career researchers and clinicians who will be accompanied during the whole congress experience on a “**career mentoring**” by 3 mentors of excellence.
- **Poster and Oral Communication Calls** and **on-site sessions discussion** will give the opportunity to attendees to share projects and results of the most recent crucial world challenges in the Respiratory and related fields.

We would be obliged if your esteemed association could consider endorsing the workshop and cooperating to the diffusion of information on a free mutual exchange basis. We would like to propose you **publishing your logo** with a direct link to your website on the Workshop’s website, and eventually a banner of your next event(s) or any other activity you would like to promote. Furthermore, we would be happy to **share your flyer/leaflet** during our event.

Your logo will also be published on the **final programme, the conference Virtual Platform and on all the graphic supports displayed on site**.

We would be grateful if you could, in exchange, do the same on your side. We also kindly ask you to **inform your members** about the conference and the different initiatives and **encourage your early career members to take part in our exciting initiatives dedicated to them**, through your usual communication channels (website, newsletters, social media) and during your events, where we ask you to **share our flyer**.

If you agree with our proposal, we would appreciate it if you could **provide us with your logo** in a high-resolution format.

You may, on the other side, find the banner of the congress and other promotional materials to share with your members at the following link: https://lung-health.org/2024/?page_id=110

We hope to count on your support to face the new crucial world challenges in the Respiratory as well as the related fields and we look forward to your kind reply. In the meanwhile, we remain at your entire availability should you need any further information.

Best regards,
The Organising Secretariat
